Dear Trustees,

In my role as Service Manager at the Jewish Family Centre, I have had the privilege of observing firsthand the development of Our Kids First. It is with great pleasure that we offer our approbation to this dedicated organisation.

Despite being a relatively new charity, Our Kids First has demonstrated compassion in identifying a significant and long-overlooked gap in existing services. Their work addresses the needs of a group that has gone unrecognised, and they have responded with a service that is and inclusive and needed.

Through their unwavering commitment to the families they support, Our Kids First is delivering support that is not only impactful, but in many cases, life changing. We look forward to their continued growth and the meaningful impact they will no doubt continue to make in our shared mission of supporting our community.

Kind Regards,

Miriam
